OBJECTIVE

A highly motivated MERN stack developer with a passion for crafting efficient and scalable web applications. Seeking to leverage skills in MongoDB, Express.js, React, and Node.js to contribute to innovative projects. Dedicated to continuous learning and staying updated with the latest technologies in the ever-evolving field of web development. Eager to collaborate with like-minded professionals to deliver exceptional digital solutions that meet and exceed client expectations.

EXPERIENCE

2017 - 2020   **QA/QC Technician**
Centum Electronics Private Limited
Micro-electronics Department

Achieved quality assurance operational objectives by preparing and implementing production, productivity and customer-service standards.

TECHNICAL TRAINING

Pursuing MEARN Stack Web Development Course at Luminar Technolab, Kozhikode

PROJECTS

Redux Cart
React Redux Cart e-commerce project is a shopping cart application using React for the frontend and Redux for state management. Users can browse products, add items to their cart, update quantities, and proceed to checkout.

React Media Player
The React Media Player project is a web application built using the React JavaScript library. It allows users to play various media files within a customizable and interactive interface

Simple Interest Calculator
A simple interest calculator is a basic application that allows users to calculate the interest on a principal amount over a specified period at a fixed interest rate. Users typically input the principal amount, interest rate, and time period, and the calculator computes the interest and total amount payable.
